

jet X 100 Years Edition

**SATA**

**Color Compass  
Corporation**

**PASSION FOR PAINTERS since 1925**

**WE'RE PROUDLY LOOKING BACK ON 100 YEARS OF PRODUCT HISTORY. JUST THIS ONCE.**

SATA celebrates 100 years of spray gun history – with a limited special edition. The jet X 100 Years Edition features the original technical drawing of our very first spray gun from 1925 – a fascinating fusion of tradition and innovation. Don't miss this once-in-a-lifetime opportunity! Get yours now – at your local dealer.

Back in 1925, our company was still known as “Sanitaria” and focused on producing medical products – including syringes and nebulizers. During a train journey, a member of our management team happened to meet another mid-sized entrepreneur – a paint manufacturer. He mentioned that he was searching for suitable tools to apply his new sprayable paints. Thanks to our expertise in atomization of liquid materials, Sanitaria was able to help. This collaboration gave birth to the company's very first spray gun. The rest is a 100-year history.

# PASSION FOR PAINTERS since 1925

THREE TIMES 100 FOR A PERFECT FINISH!
