

i4s WITH ERGO LIFT ASSIST AND TOOL BALANCER RING

i4s-ELA

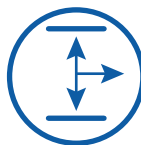

INTRODUCING A POWERFUL COMBINATION TO UPGRADE YOUR PRO SPOT i4s SPOT WELDER!

UPGRADED i4s WITH ERGO LIFT ASSIST

It is now possible to Pro Spot's revolutionary battery powered motorized boom to your i4s. The ELA allows you to reach higher and lower than ever before while maintaining balance and support for the i4s gun. This ergonomic solution reduces stress, fatigue and injuries caused by long periods of gun positioning and utilization.

The extremely mobile ELA is battery powered so it can go anywhere in the shop without being tethered to an electrical outlet. Its compact footprint allows it to fit through any conventional size shop door.

9' MAX HEIGHT,
